About DesignSnipe

THE SHORT VERSION.

What we are	A small web design studio. One team designs, writes, builds, and looks after every site.
Who we work with	Small and growing businesses anywhere in the United States, from contractors and law firms to med spas, restaurants, and startups.
Where we're based	The Tampa Bay area of Florida. We work remotely with clients nationwide.
What we sell	Custom websites from $1,000 to $10,000, Website Care at $500 a month for hosting, SEO, and updates, and ready-made website templates from $50.

HOW WE WORK.

Step 1

Your project brief

A guided questionnaire covers your goals, customers, brand, photos, video, and features, with no meeting needed. Signature and Flagship add a live consultation.

Step 2

Your site, designed

We write the copy and design the key pages around your brand. You review real designs, not wireframes, and tell us what to change.

Step 3

Built and tested

We build it fast, mobile-first, and SEO-structured, wire up your forms and integrations, and test on every screen size.

Step 4

Live, and looked after

We launch on your domain. On Website Care we keep it hosted, updated, and climbing on Google week after week.

Fixed prices, published	Every build has a published, fixed price from $1,000 to $10,000. No hourly billing, no surprise invoices.
A brief, not a string of meetings	Launch and Growth projects start from a guided project brief. Bigger builds add a live consultation.
You own everything	Your design, content, files, and domain are yours. If you ever leave, we hand it all over.
Honest about the alternatives	A template, a DIY builder, or a freelancer is sometimes the right call. We'll say so.

Services and pricing

WHAT WE MAKE.

Four fixed-price custom builds. Pay in full, or pay a 50% deposit to start and the balance when your site is complete.
